

 答案册 • LF-P5-S2-L23_Mixing_of_three_fractions_mixing_of_f

✅ 自動解答：33/39 (85%) | ⚠ 需手動：6 題 | 原講義：LF-P5-S2-L23_Mixing_of_three_fractions_mixing_of_four_fractions.html

#	題目	答案	類型
1	Calculate LCM(3, 4, 6) = ? (least common multiple of three numbers)	—	manual
2	Calculation: $12 + 13 = ?$ (Review addition of common fractions with different denom	25	auto
3	Calculation: $23 \times 12 = ?$ (Review multiplication of fractions)	276	auto
4	Calculation: $34 \div 12 = ?$ (Review fraction division: the fraction after $\div$ needs to	2.83	auto
5	$14 + 12 + 18 = ?$	26	auto
6	$23 + 16 + 12 = ?$	39	auto
7	$56 - 13 + 12 = ?$	25	auto
8	$12 + 13 - 14 = ?$	25	auto
9	$13 \times 12 \div 16 = ?$	0.75	auto
10	$25 \div 23 \times 12 = ?$	1.09	auto
11	$34 \times 23 \div 12 = ?$	1.92	auto
12	$56 \div 23 \times 12 = ?$	2.43	auto
13	$12 + 13 \div 16 = ?$	0.81	auto
14	$23 \times (12 + 14) = ?$	26	auto
15	$34 - 12 \times 13 = ?$	156	auto
16	Xiaomei has 25 liters of orange juice. After drinking 110 liters, she divides the re	—	manual
17	One piece of 13 was used as a gift, and the remaining 12 was used for decoration. Wh	—	manual
18	The younger brother's pocket money belongs to the older brother SEP , and t	—	manual
19	$13 + 16 + 12 = ?$	29	auto
20	$58 - 14 + 12 = ?$	26	auto
21	$14 \times 23 \div 12 = ?$	1.92	auto
22	$12 + 14 \div 12 = ?$	1.17	auto
23	$35 + 12 - 110 + 15 = ?$ (Four fractions addition and subtraction mixed)	47	auto
24	$78 \div 34 \times 12 = ?$	2.29	auto
25	$(12 - 13) \div 16 + 14 = ?$	30	auto

26	$12 + 23 \times 34 \div 12 = ?$ (Four mixing rules: first $\times \div$, then $+-$)	2.83	auto
27	$23 \div 12 \times (12 + 14) = ?$ (Parentheses first, then multiplication and division)	1.92	auto
△1	Calculation: $(SEP) = ?$ (two brackets, then $\times \div$ - pay attention to the order!)	25	auto
△2	Bottle of Juice 34 Liters. I drank 16 at breakfast and the remaining 23 at lunch	—	manual
M1	$12 + 13 \div 16 - 14 = ?$ ($\div \rightarrow - \rightarrow +$, pay attention to the order!)	0.81	auto
M2	$23 + 12 \times (13 + 16) = ?$ (Brackets first, then $\times$, and finally $+$)	35	auto
H1	$12 + 14 + 18 = ?$	26	auto
H2	$35 + 110 + 12 = ?$	145	auto
H3	$23 \times 14 \div 12 = ?$	1.17	auto
H4	$34 - 18 + 12 = ?$	30	auto
H5	$12 + 13 \times 14 = ?$	182	auto
H6	$35 + 12 \times 23 = ?$	276	auto
H7	$23 \div 12 + 14 \times 23 = ?$	1.92	auto
H8	A ribbon is 112 meter long. After using $ SEP $, the remaining 13 is used to wrap	—	manual
