

 答案册 • LF-P5-S2-L26\_Volume\_concept\_volume\_of\_cuboid\_surfa

✅ 自動解答：13/57 (23%) | ⚠ 需手動：44 題 | 原講義：LF-P5-S2-L26\_Volume\_concept\_volume\_of\_cuboid\_surface\_area.html

| #         | 題目                                                                                            | 答案 | 類型     |
|-----------|-----------------------------------------------------------------------------------------------|----|--------|
| 1         | The length of the rectangle is 8 cm, the width is 5 cm, the area = ? What is the              | —  | manual |
| 2         | 1 m = ? cm ; 1 m <sup>2</sup> = ? cm <sup>2</sup>                                             | —  | manual |
| 3         | Calculate $12 \times 5 \times 3 = ?$                                                          | 60 | auto   |
| 4         | Calculate $7^3 = ?$ (i.e. $7 \times 7 \times 7$ )                                             | 49 | auto   |
| 5         | How many faces does a cube have? What is the shape of each face?                              | —  | manual |
| Example 1 | Count: How many 1 cm <sup>3</sup> small cubes are made of in the picture below? (Picture: 2×  | 6  | auto   |
| Example 2 | 2 m <sup>3</sup> = ? cm <sup>3</sup> (write down the conversion steps)                        | —  | manual |
| Example 3 | 3,000,000 cm <sup>3</sup> = ? m <sup>3</sup>                                                  | —  | manual |
| 6         | A cube with side length 1 cm has volume = ? What is the unit?                                 | —  | manual |
| 7         | 1.5 m <sup>3</sup> = ? cm <sup>3</sup>                                                        | —  | manual |
| 8         | 500,000 cm <sup>3</sup> = ? m <sup>3</sup> (answer as a decimal)                              | —  | manual |
| Example 4 | The cuboid is 10 cm long, 6 cm wide, and 4 cm high. Volume = ?                                | —  | manual |
| Example 5 | The cuboid is 1.5 m long, 0.8 m wide, and 0.5 m high. Volume = ? m <sup>3</sup>               | —  | manual |
| Example 6 | The cuboid has a volume of 240 cm <sup>3</sup> , a length of 10 cm, and a width of 6 cm. High | —  | manual |
| 9         | Cuboid $12 \times 5 \times 8$ cm. Volume = ?                                                  | 60 | auto   |
| 10        | Cuboid $3 \text{ m} \times 2 \text{ m} \times 1.5 \text{ m}$ . Volume = ? m <sup>3</sup>      | —  | manual |
| 11        | The cuboid is 1 m long, 40 cm wide, and 25 cm high. Volume = ? cm <sup>3</sup>                | —  | manual |
| 12        | The cuboid has a volume of 360 cm <sup>3</sup> , a length of 12 cm, and a height of 5 cm. Bro | —  | manual |
| 13        | The cuboid is 80 cm long, 0.5 m wide, and 40 cm high. Volume = ? m <sup>3</sup> (answer as a  | —  | manual |
| Example 7 | The side length of a cube is 9 cm, its volume = ?                                             | —  | manual |
| Example 8 | Volume of cube is 216 cm <sup>3</sup> , side length = ?                                       | —  | manual |
| 14        | The side length of the cube is 7 cm. Volume = ?                                               | —  | manual |
| 15        | The side length of the cube is 0.5 m. Volume = ? m <sup>3</sup>                               | —  | manual |
| 16        | Cube volume 125 cm <sup>3</sup> . Side length = ?                                             | —  | manual |

|    |                                                                                               |     |        |
|----|-----------------------------------------------------------------------------------------------|-----|--------|
| 17 | The side length of the cube is 15 cm. Volume = ? cm <sup>3</sup> ; how much m <sup>3</sup> ?  | —   | manual |
| 18 | Cuboid 10×6×4 cm. (a) Volume = ? (b) Surface area = ?                                         | 60  | auto   |
| 19 | The side length of the cube is 5 cm. (a) Volume = ? (b) Surface area = ?                      | —   | manual |
| 20 | Cuboid 12×8×6 cm. Surface area = ?                                                            | 96  | auto   |
| 21 | Cuboid 8×4×3 cm. Volume = ?                                                                   | 32  | auto   |
| 22 | The side length of the cube is 6 cm. Volume = ?                                               | —   | manual |
| 23 | Cuboid 5×5×10 cm. (a) Volume = ? (b) Surface area = ?                                         | 25  | auto   |
| 24 | The side length of the cube is 8 cm. Volume = ? Surface area = ?                              | —   | manual |
| 25 | 2.5 m <sup>3</sup> = ? cm <sup>3</sup>                                                        | —   | manual |
| 26 | The cuboid is 2 m long, 1.2 m wide, and 80 cm high. Volume = ? m <sup>3</sup>                 | —   | manual |
| 27 | The cuboid has a volume of 480 cm <sup>3</sup> , a length of 10 cm, and a width of 8 cm. High | —   | manual |
| 28 | The surface area of the cube is 150 cm <sup>2</sup> . Side length = ? Volume = ?              | —   | manual |
| 29 | Compare: A (cuboid 10×6×4 cm) and B (cube with sides 6 cm). Which one is larger?              | 60  | auto   |
| 30 | The cuboid is 1.5 m long, 0.8 m wide, and 60 cm high. Surface area = ? m <sup>2</sup>         | —   | manual |
| 31 | The side length of a cube is twice the height of a cuboid. Cuboid 10×8×6 cm. How              | 80  | auto   |
| 32 | The internal dimensions of a rectangular water tank are 80 cm × 50 cm × 60 cm. (              | —   | manual |
| 33 | Assemble 8 cubes with sides 3 cm into one large cube. (a) Side length of a large              | —   | manual |
| 34 | A rectangular fish tank is 60 cm long, 30 cm wide, and 40 cm high. What is the v              | —   | manual |
| 35 | A cube gift box has a side length of 15 cm. To wrap all sides of the gift box wi              | —   | manual |
| 36 | The internal length of a rectangular container is 6 m, the width is 2.5 m, and t              | —   | manual |
| 37 | The rectangular pool is 8 m long, 5 m wide, and 1.5 m deep. The walls and bottom              | —   | manual |
| 38 | A square volume of wood has a side length of 10 cm. Cut it into 8 small cubes of              | —   | manual |
| 39 | A cuboid room is 5 m long, 4 m wide, and 3 m high. (a) Volume of room = ? m <sup>3</sup> (b)  | —   | manual |
| 🏠1 | The volume of a cube is 512 cm <sup>3</sup> . (a) Side length = ? (b) Surface area = ? (c) If | —   | manual |
| 🏠2 | The cuboid is 12×9×8 cm and the side of the cube is 10 cm. (a) What is the diffe              | 108 | auto   |
| 🏠3 | A cuboid water tank without a lid is made of 1 cm thick glass. External dimensio              | —   | manual |
| H1 | Cuboid 9×5×4 cm. Volume = ?                                                                   | 45  | auto   |
| H2 | The side length of the cube is 7 cm. Volume = ? Surface area = ?                              | —   | manual |
| H3 | Cuboid 12×8×10 cm. (a) Volume = ? (b) Surface area = ?                                        | 96  | auto   |
| H4 | 3 m <sup>3</sup> = ? cm <sup>3</sup> (write down the conversion steps)                        | —   | manual |

|    |                                                                                                                       |             |        |
|----|-----------------------------------------------------------------------------------------------------------------------|-------------|--------|
| H5 | The cuboid has a volume of $360\text{ cm}^3$ , a length of $12\text{ cm}$ , and a height of $5\text{ cm}$ . Fin       | <div></div> | manual |
| H6 | The surface area of the cube is $294\text{ cm}^2$ . Side length = ? Volume = ?                                        | <div></div> | manual |
| H7 | A room is $6\text{ m}$ long, $4\text{ m}$ wide and $3\text{ m}$ high. How many $\text{m}^2$ are the total areas of th | <div></div> | manual |
