#	題目	答案	類型
1	A cuboid is 8 cm long, 5 cm wide, and 3 cm high. Volume = ?	_____	manual
2	A cube, side length 4 cm, volume = ?	_____	manual
3	1 liter = _____ cubic centimeter (cm^3)	_____	manual
4	A rectangular container has base area = 40 cm^2 and height 20 cm. What is the tot	_____	manual
5	There is water in a cup. A pebble is placed in the cup and the water level rises	_____	manual
6	The bottom area is 30 cm^2 , and the water surface rises by 5 cm after placing the	_____	manual
7	The base area is 45 cm^2 and the raw water height is 10 cm. Completely submerged	_____	manual
8	The rectangular container is 20 cm long, 15 cm wide, and the raw water is 12 cm	_____	manual
9	The side length of the cube container is 10 cm and the height of the water is 6	_____	manual
10	Container capacity 3 L, original water 2.5 L (i.e. 2500 cm^3). An object with a v	_____	manual
11	Container capacity 1000 cm^3 , original water 750 cm^3 . An object with a volume of	_____	manual
12	The fish tank capacity is 50 L, and the original water is 45 L. Place a rockery	_____	manual
13	A cube container has an unknown side length and a capacity of 2.4 L. Original wa	_____	manual
14	The bottom area of the measuring cup is 15 cm^2 , the height of the water is 10	_____	manual
15	The bottom area of the rectangular water tank is 50 cm^2 , and the water level r	_____	manual
16	The bottom area of the measuring cup is 80 cm^2 , and the water level rises from	_____	manual
17	An irregular metal block is placed in a measuring cup (base area 25 cm^2) and the	_____	manual
18	The water tank is 20 cm long, 10 cm wide, and the water height is 15 cm. Place 6	_____	manual
19	The bottom area of the container is 50 cm^2 and the water height is 12 cm. An o	_____	manual
20	The fish tank is 40 cm long, 25 cm wide, and the water height is 30 cm. (a) Afte	_____	manual
21	The water tank is 30 cm long, 20 cm wide, and the water height is 18 cm. First t	_____	manual
22	The base area is 25 cm^2 , the original water height is 10 cm → when an object is	_____	manual
23	Container capacity 800 cm^3 , original water 600 cm^3 . What is the maximum volume o	_____	manual
24	The bottom area of the fish tank is 200 cm^2 , and the water height is 15 cm. Pl	_____	manual
25	The side length of the cube container is 10 cm and the height of the water is 8	_____	manual

26	The bottom area of the measuring cup is 30 cm^2 , and the water level rises from	_____	manual
27	Rectangular water tank $30\text{ cm} \times 20\text{ cm} \times 25\text{ cm}$ (height), original water volume 400	_____	manual
28	The bottom area of the measuring cup is 50 cm^2 and the height of the water is	_____	manual
29	In a rectangular container, the water level rises by 2.5 cm after placing a 500	_____	manual
30	The original water in the fish tank is 40 L. After the rockery is placed, the wa	_____	manual
31	40x30x25Water height 15cm5x5x5A rectangular water tank is 40 cm long, 30 cm wide	1200	auto
32	A: $15 \times 10 \times 8$ B: $20 \times 10 \times 5$ pour waterThe height of water in container A (cuboid 15 cm	150	auto
33	$h=4$ (front)stone 800 cm^3 $h=12$ (back)A cube container with water 4 cm high. After an	_____	manual
H1	The bottom area of the container is 35 cm^2 and the water height is 6 cm. After	_____	manual
H2	The bottom area of the container is 80 cm^2 , and an object with a volume of 400	_____	manual
H3	The water tank is 50 cm long, 20 cm wide, and the water height is 18 cm. An obje	_____	manual
H4	Container capacity 1.5 L, original water 1 L. How many cm^3 is the remaining spac	_____	manual
H5	An irregular stone is placed in a measuring cup (base area 32 cm^2) and the water	_____	manual
H6	The side length of a cube container is 15 cm and the height of the water is 6 cm	_____	manual
H7	The bottom area of the water tank is $45\text{ cm} \times 20\text{ cm} = 900\text{ cm}^2$, and the water he	_____	manual
H8	The capacity of a fish tank is 60 L, and the original water is 48 L. Place a roc	_____	manual
